Computer Systems

Canine-Table

POSIX Nexus serves as a comprehensive cross-language reference hub that explores the implementation and behavior of POSIX-compliant functionality across a diverse set of programming environments. Built atop the foundational IEEE Portable Operating System Interface (POSIX) standards, this project emphasizes compatibility, portability, and interoperability between operating systems.

Abstract

Contents

I System Information

I Make and Model

I Operating System Name and Version

II Central Processing Unit

II Processor type and Speed

II Number of Processor Cores

II Number of Logical Processors

III Virtualization

IV Storage

V Capacity Storage

VI Storage Type

VII PCIe Slots

VII PCIe Slot

11. What types of USB port does your laptop have? (USB Type A 2.0/3.0 and/or Type-C) 12. Does your laptop have a Display Port (display-port-socket)? Yes/No 13. Does your laptop have a HDMI Port? Yes/No 14. Does your laptop have a Web Camera? Yes/No 15. Does your laptop have an Ethernet port? Yes/No 16. Does your laptop have a Separate Graphics Card? Yes/No
